Designing and Managing a Research Project Michael Jay Polonsky 2010-07-20
This practical, step-by-step guide shows business students how to successfully conduct a research project, from choosing the topic to presenting the results. The book is divided into sections on preparing and planning the project, undertaking

the research, and communicating the results. The authors have applied their many years of experience in supervising student projects to provide examples of actual research problems and to offer practical solutions. Unique to this book is the inclusion of chapters on topics such as supervision, group work and ethics, and both qualitative and quantitative data analysis. This student-friendly guide will be ideal for supporting undergraduate research projects in business and management, as well as MBA assignments and other graduate classes in applied fields such as public administration and health care administration.

Beginning Windows Store Application Development: HTML and JavaScript Edition Scott Isaacs 2013-09-28 Beginning Windows Store Application Development - HTML and JavaScript Edition introduces you to the Windows 8 modern app design paradigm and the new Windows 8 programming model developed around this paradigm. You'll learn to build rich, immersive applications designed to run on the many devices powered by Windows 8. The authors draw on their extensive practical experience to provide not only a comprehensive introduction to the model and its features, but guidance on best practices and a real-world sample application that you develop over the course of the book. Beginning Windows Store Application Development - HTML and JavaScript Edition also emphasizes how devices will be used and applications will be built in a world that has become far more connected. The book takes you beyond the syntax of any development language and examines factors such as application design, user experience, social integration, and maintaining data and settings across multiple devices.

Die optimal gestaltete Homepage als Instrument der Personalbeschaffung Andrea Lich 2016-05-11 Soziale Dienstleistungsorganisationen sowohl in freier wie auch privater Trägerschaft haben einen Stellenwert von kleinen bis mittleren Unternehmen. Diese Unternehmen sind ebenso wie die meisten Unternehmen des deutschen Arbeitsmarktes im Zusammenhang mit dem demographischen Wandel stark betroffen von einem zunehmenden Fachkräftemangel. Zahlreiche "soziale" Organisationen haben damit begonnen Personal im Internet anzuwerben. Ebenso haben sich die Gewohnheiten der

Bewerbenden dieser Entwicklung angepasst. Ausgehend von dieser Situation beschäftigt sich diese Bachelorarbeit mit der Frage, inwieweit der Deutsche Caritasverband, das Diakonische Werk und die Arbeiterwohlfahrt die einzelnen Homepages ihrer städtischen Verbandsniederlassungen optimal gestaltet haben, um über diese unternehmensgeeignete Fachkräfte rekrutieren zu können. Die Bachelorarbeit berichtet über die zentralen statistischen Ergebnisse und diskutiert die gewonnenen Daten und Informationen.

Selected paper from 6th International Conference on Renewable Energy Sources (ICoRES 2019) Marcin Jewiarz 2020-11-23 Thank you for reaching for this book. It is a summary of the research presented at the 6th International Conference on Renewable Energy Sources (ICORES19), which took place in Krynica, Poland, in June 2019. This event is the most recognizable scientific meeting connected to RES in Poland. From the very beginning, this conference has been a unique occasion for gathering Polish and international researchers' perspectives on renewable energy sources and balancing them against governmental policy considerations. Accordingly, the conference has also offered panels to discuss best practices and solutions with local entrepreneurs and federal government bodies. The meeting attracts not only scientists but also industry representatives, as well as local and federal government personnel. We are open to new and fresh ideas concerning renewable energy, which is why so many scientists from Central and Eastern Europe visit Krynica to discuss the "Green Future" of this region. In 2019, the conference was organized by the University of Agriculture in Krakow, in cooperation with the AGH University of Science and Technology (Krakow), the State Agrarian and Engineering University in Podilya, the University of Žilina, the International Commission of Agricultural and Biosystems Engineering (CIGR) and the Polish Society of Agricultural Engineering. Honorary

auspices were made by the Ministry of Science and Higher Education of the Republic of Poland, the rector of the University of Agriculture in Krakow, the rector of the AGH University of Science and Technology and the rector of the State Agrarian and Engineering University in Podilya.

Modern Transfer of Cultures Considering as Example of a German Radio-homepage Tanja Kasper 2007-11 Seminar paper from the year 2005 in the subject Sociology - Culture, Technology, Peoples / Nations, grade: 1,7, University of Vaasa, course: Transfer in

Literature and the Media, 0 entries in the bibliography, language: English, abstract: Is it possible to transfer the basics about another culture in 724 words? Or if not, what else can be gained? This shall be an essay to explore in which way different cultures present each other in modern times, illustrated on the basis of a German homepage presenting several information about Finland. The very popular german radio station EINS LIVE publishes this page. The choice was made because it's so popular, it applies one of the most modern information ways and present an interesting composition of the information. Furthermore one can assume that these information are relative important for the future image of Finland in Germany, because the target group of this radiostation is the generation between 14-30 and therefore the future generation of a more and more accreting Europe. First of all there will be given some more necessary information about the analysed homepage and its publisher. Afterwards, every topic will be analysed which and in which way information is given. Finally it should be tried to reflect why this choice was made. That means the way in which the performing culture influences the choice and how far this gives information about the illustrated culture. The final aim here is to draw conclusions how transfer of a culture works or is practiced in modern Media and times.
